PAVCOFFEE

DRIP BAG COFFEE

ABOUT US

We are coffee lovers who believe that a perfect cup can change your day. PAVCOFFEE was born from a desire to bring premium coffee in a simple form, so that anyone can enjoy it – without complicated preparation, but with full depth of flavor and aroma. We wanted to create more than just a product – we wanted to bring an experience, one that combines taste, aroma, aesthetics and simplicity into a harmonious whole.

At **PAVCOFFEE**, we care about every detail – from selecting the best Arabica beans, through fine-tuning the flavors, to the design, which is not just about packaging, but about a visual and sensory connection. We believe coffee begins even before the first sip – in what you see, what you feel, in the expectations that turn into real taste

*PAVCOFFEE is more than just a brand.
It's a story of passion, precision, and the desire to bring
coffee that touches not only your taste buds, but also*

Values

-  **Premium Quality** – Carefully selected Arabica beans and precise processing for perfect flavor.
-  **Sensory Synthesis** – Coffee is not just about taste, but also a visual and sensory experience.
-  **Simplicity and Accessibility** – Premium coffee that can be enjoyed by anyone, anytime, anywhere.
-  **Natural Ingredients** – Pure, authentic flavors without unnecessary additives.
-  **Passion and Precision** – Every detail, from bean selection to packaging design, is crafted with love and perfection.
-  **A Story in Every Cup** – Our coffee carries a message of quality, aesthetics, and uniqueness.

Vision

Our vision is to change the way people prepare and perceive coffee to bring them a premium experience in a simple form, accessible anytime and anywhere.

DISCOVER TWO WAYS TO PREPARE COFFEE
AND ENDLESS POSSIBILITIES TO ENJOY IT

DRIP COFFEE

PAVCOFFEE *is here for you,
wherever you are.*

1. Opening the filter

Simple and practical packaging.

Tear open the filter filled with freshly ground coffee.

Thanks to the precise packaging, the coffee retains its aroma and flavor.

2. Placing the filter on the cup

Secure attachment for a perfect drip brewing process.

Unfold the side handles and place the filter on your cup.

The design ensures a safe fit for various cup types.

3. Pouring hot water

You decide the intensity of flavor.

Using gentle circular motions, pour hot water (approx. 92 °C) over the coffee.

Let the coffee drip through for a milder taste or steep it a bit longer for a more intense experience.

*You can enjoy your coffee with milk,
your favorite sweetener,
or savor it in its purest form.*

COLDBREW

A simple method for perfectly refreshing coffee.

1. Placing the sealed filter into the glass

Cold extraction for a smooth and gentle taste.

Place the sealed coffee pouch into a glass and pour in cold water (ideally filtered). The pouch will naturally begin to absorb water and gradually release the first coffee notes.

2. Gentle stirring – combining water and coffee

The start of extraction.

Stir gently to ensure even saturation and to begin the extraction process, during which subtle flavor tones are released.

Then place the glass in the fridge and let the coffee steep.

3. A chilled glass filled with richly colored coffee

Refreshing cold brew coffee ready to serve.

After 12-24 hours in the fridge, your cold brew is perfectly extracted. The result is a deep, naturally sweet coffee with a refreshing effect.

*Experiment and try exciting combinations.
Cold brew tastes great with tonic, citrus, or
ice for extra refreshment.*
